
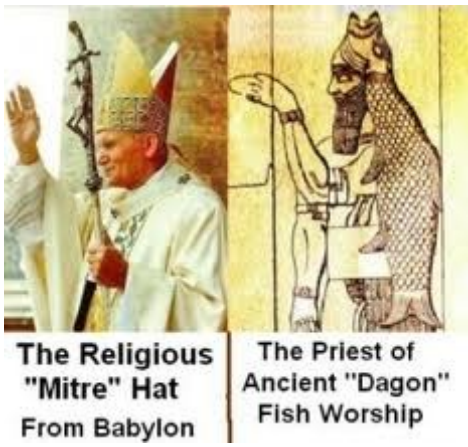
THE CATHOLIC CHURCH IS A PAGAN BABYLONIAN RELIGION THAT HAS BEEN OVERLAID WITH THE WORSHIP OF JESUS TO HIDE IT'S TRUE AGENDAS

SECRETLY the Jewish and Roman Orthodox Catholic and Christian Church worship the FISH GODS while only claiming to worship and promote Jesus. The Fish Gods were aliens who were the creators of the alien human hybrid Semite, Edomite, Canaanite, Turkish, etc., (SECT) SWAMP bloodlines and that includes all (dark hair dark eyed bloodlines) in the Middle and Far East. In this case it is a reference to alien hybrid cloning by the alien gods

whose legends came out of Babylon, Mesopotamia, Iraq etc.



The Jews, Roman leaders and the founders of the Jewish and Roman Orthodox Catholic and Christian Church (JROCCC) were the descendents of these alien human bloodlines who came out of Babylon. Jesus warned us that the JROCCC would be created after he was gone that "did not preach, teach or believe what he believed."

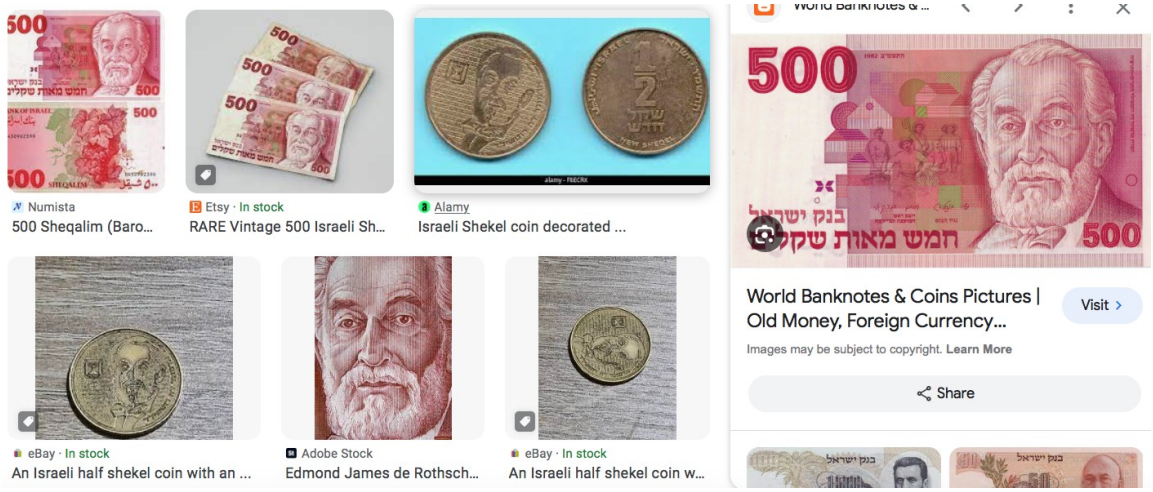
Catholicism was Babylonism. Nazism was practiced in Babylon

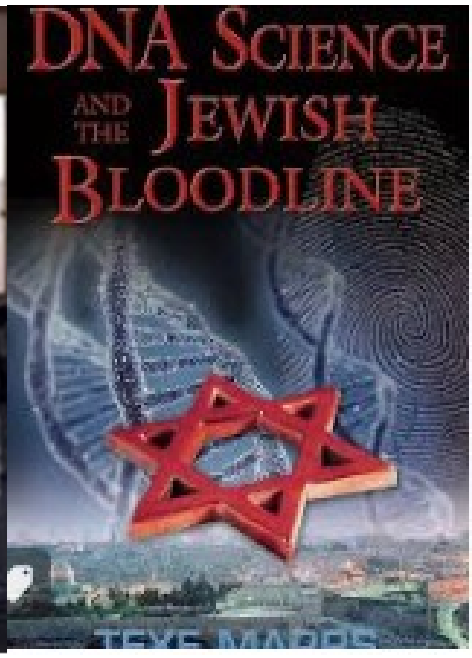
Alien Hybrid Bloodline Tree of Life Created by the Fish Gods

Dagon was originally an Assyro-Babylonian fertility god who evolved into a major northwest Semitic god, reportedly of grain and fish and/or fishing. He was worshipped by the early Amorites and by the inhabitants of the cities of Ebla and Ugarit . He was also a major member, or perhaps head, of the pantheon of the Biblical Philistines. More

WHO WERE THESE ALIEN TURKISH FISH GODS

Back in Babylonian times people were **not** allowed to create actual images to the gods to present them as they really looked. Instead, they had to produce symbolic images of them so that the people knew who the gods in that region were. Dagon was referred to as the Chief Deity of the Philistines that date back to 3000 BC. He was heavily worshipped in the cities of Azotus, Gaza and Ashkelon.





Coming forward in time we notice that12 miles north of Gaza and 32 miles south of Joppa we find five leading Philistine Fish God cities mentioned in the Bible that had migrated into Southern Israel from the coastline. They were: Ashkelon, Ashdod, Ekron Gaza, Gath. They were also Philistine territories that later settled on the Israeli coastal plain in 1200 BC. Ashkelon comes from the word “shekel.” Ashkelon was a major trading center located on the international highway. Now look at who the Shekel bloodline became. They are known as the 13th Tribe (Satan’s tribe) the Jewish Rothschild banking dynasty who carry the

Nephilim Giant DNA. They are part of the Semite, Edomite, Canaanite, Turkish (SECT) Serpent, Snake and Scorption (SSS) SWAMP that is installing the New Nazi World Order NWO today globally.

Underwater Alien Base Camps from under the Sea

Little is known about Dagon regarding the Canaanite pantheon or Dagon's role among the Canaanite gods who were known for worshipping the Sun God but the position that he used to play in Palestinian religion is quite evident.

He was the god of fertility and crops. He was one of the Elohim recreator gods in Genesis. He was typically symbolically portrayed with the upper body of a man, and

the lower body of a fish. “Dag” is actually the Hebrew translation for “fish,” and “dagan” means grain in Greek. Often times, Dagon was associated with a female deity named Derceto. She also had the upper body of a human with the lower body of a fish. This may explain why Dagon is regularly portrayed as a half-fish, half-man creature. Coins from ancient Phoenician and Philistine cities indicate that Dagon was not solely represented as a fish-like creature. The fish lower body image may be due to different perceptions of Dagon that could have developed around the Mediterranean Sea which may have been the location for the under sea base camp of these aliens.

THESE WERE ELOHIM ALIENS WHO CLONED ALIEN HUMAN HYBRID RACES

Dagon was one of four sons to Anu, who was the Turkish Sumerian alien sky god.

Dagon's son Baal, later took on the role as the god of fertility which seems to refer to the growing of crops.

His brother El was a geneticist who was known as the "father or creator of (alien human HYBRID) bloodlines." He was

typically portrayed with bullhorns, which may be a reference to the BULL god Mithras. The depiction of deities with bullhorns is actually evident in many ancient civilizations. Although Dagon was the Chief ALIEN Deity in Palestine, he was considered second to El in the Canaanite pantheon.

The religious practices involving Dagon continued to at least the second century BCE. At the time, the Israelites established a monarchy, and Palestine became their biggest enemy. Dagon's reign as a deity more than likely ended after to the destruction of temple at Azotus.

If you enjoy a big fat conspiracy theory, try this one out for size - people reckon aliens might have underwater bases here on Earth.

The theory stems from a number of UFO sightings near the Solomon Islands, with witnesses claiming the UFOs appear to rise out of the surrounding ocean where warships sank during World War Two before vanishing into a remote island lake.

Author Andrew Collins said on the programme: "There have been reports that objects, strange lights, actually rise up out of the waters into the air and move about for a period of time and then disappear.

"And often this is either witnessed from the beach or is experienced close hand by fishermen, and it said that sometimes these objects come so close that the fishermen can actually feel the heat as they pass."

Fellow author Mike Bara added: "There have been sightings of flying saucers appearing over the wreckage flying into and out of mountains in volcanoes in the area.

Alien Abductee's Told their Story

The fish gods were depicted wearing fish skins as a way of indicating that they came from the sea where they have under water and under land alien bases. They came to create alien human hybrid races. They created the Olive Tree, which appear to represent these alien human hybrid tribes.

These tribes became a race of hybrids Jesus warned us about who became the Semite, Edomite, Canaanite, Turkish (SECT) Serpent, Snake and Scorpion (SSS) SWAMP NEW WORLD ORDER today. They include the ancient AshkeNAZI Zionist, Sephardic Jews and Merovingian (ASM'S) and their Magdalenian line of BLUE BLOOD ROYALTY who stole the DIVINE RIGHT TO RULE THE WORLD from our ancient Scandinavian ancestors.

The two-horned mitre, which the Pope wears, when he sits on the high altar at Rome and receives the adoration of the Cardinals, is the very mitre image worn by the priests of Dagon, the fish-god of the Philistines and Babylonians."
Go to – The Two Babylons ; Alexander Hislop; p. 215

Not only does the pope wear this “Mitre” hat, but so do the Cardinals on certain occasions when they are dressed in their royal regalia. The hat represents the fact that the JROCCC is under the control of Aliens and promote Alienology not true Christanity.

The Mystery religion of ancient Babylon / Assyria, was known as the priestly class of “Dagon.” Today they have been transformed into the JROCCC CLERGY.

“The two-horned mitre, which the Pope wears, when he sits on the high altar at Rome and receives the adoration of the Cardinals, is a copy of the mitre worn by the Priests of Dagon, the fish-god of the Philistines and Babylonians.”
Go to - The Two Babylons ; Alexander Hislop; p. 215

There’s nothing in the Bible that indicates that Jesus Yahushua ever wore such a hat.

Why does the Pope?

“…there is strong evidence that Dagon was Nimrod…. All scholars agree that the name and worship of Dagon was imported from Babylonia. ”– The Two Babylons, Hislop, p. 215

“In their veneration and worship of Dagon, the high priest of paganism would actually put on a garment that had been created from a huge fish! The head of the fish formed a mitre above that of the old man, while its scaly, fan-like tail fell as a cloak behind, leaving the human limbs and feet exposed.” – Babylon and Nineveh, Austen Henry Layard, p. 343

“The most prominent form of worship in Babylon was dedicated to Dagon, later known as Ichthys, or the fish. In Chaldean times, the head of the church was the representative of Dagon, he was considered to be infallible, and was addressed as ‘Your Holiness’. Nations subdued by Babylon had to kiss the ring and slipper of the Babylonian god-king. The same powers and the same titles are claimed to this day by the Dalai Lama of Buddhism, and the Pope. Moreover, the vestments of paganism, the fish mitre and the Catholic bishops, cardinals and popes wear robes of the priests of Dagon. - The Wine of Babylon; Pg 9

The excavations done of ancient Nineveh and Babylon have shed light on the shocking connection between Dagon the fish-god and the Pope’s Mitre (hat).

According to Egyptian mythology, when the judges found Osiris [Nimrod] guilty of corrupting the religion of Adam and cut up his body, they threw the parts into the Nile. It was said that a fish ate one of these chunks and became transformed. Later, Isis [Semiramis] was fishing along the river bank when she fished up a half-man, half-fish. This sea creature was

Dagon is the representation of Nimrod (of ancient Babylon) resurrecting out of the ocean depths as a half-man, half-fish.

“Dagon is the diminutive of dag, and signifies… fish… The Babylonians believed that a being, part man and part fish, emerged from the Erythraean Sea, and appeared in Babylonia in the early days of its history… Representations of this fish-god have been found among the sculptures of Nineveh. The Philistine Dagon was of a similar character.” used in their legends and myth’s – Manners and Customs of the Bible; James Freeman

And this also explains the symbol for Christianity, the fish – the “Ichthys” which is Dagon.
